Steam Branches

Steam branches are used for deploying builds. Steam branches can be managed here. Some folks report the usage of steam branches here.

The maker team has its own steam branch per dev! Please generally stick to yours and ask around internally if for some reason you need to juggle more than 1 branch at a time!

maker1 - @Berk
maker2 - @Jack Pritz
maker3 - @George (Irdakuh)
maker4 - @Jonathan (thirdcompany)
maker5 - open / in use for RRS prototypes (Tim)
maker6 - @corey (ForeverSummerSky)
maker7 - @Tim Panec
maker8 - @Drake Poling

maker9 - @ Ben Strukus

Ask @Berk or another team member for the password!
